Vacancy details

We are looking for a skilled math expert who will solve math tasks and provide step-by-step solutions to our users daily.

MathMaster is an innovative EdTech project that delivers outstanding math-solving experiences to millions of students worldwide.

If you feel like that's something you'd love to do, please apply at hiring@mathmaster.pro.

You are our perfect expert if:

- You are very skilled at math.
- You already have or are currently obtaining a degree in math specialties. We consider students starting from second-year undergraduates.
- Your English level is not less than B1 (Intermediate). Effective communication with users will depend entirely on this

skill.

- You know English math terminology perfectly.
- You are okay with a part-time (4 consecutive hours) or full-time (8 consecutive hours) working schedule.
- You can work productively in a remote format and have a stable Internet connection.

Your responsibilities:

- Communicate politely and effectively with users in the chat.
- Solve different math problems submitted by users.
- Provide detailed step-by-step explanations of the solutions (if requested).

We offer:

- The chance to join the development of an outstanding product in one of the most promising niches today - EdTech.
- Competitive and stable compensation in USD. Our experts can earn up to \$150 per week!
- Non-bureaucratic environment.
- Flexible part-time/full-time schedule. You will be able to combine work with your studies, for instance.
- Convenient remote work format. You can work from any corner of the world.
- Constant communication with native speakers and the opportunity to quickly improve your English.
- Work in a great international team of math experts.

Sounds interesting? Please send your CV here: hiring@mathmaster.pro.

(!) Please note that only candidates who apply via email above are considered.

We look forward to having you on board!
