Vacancy details

Vacancy description

Our company is a world leader in sports statistics and analytics. We know everything about football, hockey and American football and work with professional clubs and leagues, bookmakers, academies and the media. Due to the increase in the volume of work in the new hockey season, we announce a recruitment for the position of an analyst of hockey games.

Responsibilities:

Record and analyze tactical and technical actions (TTD) of players in specialized software.

Basic requirements for candidates:

Proficiency in computer knowledge.

The presence of the Telegram messenger for communication

Have a PC or laptop.

Knowledge of hockey rules (not required but would be an advantage as it will make learning easier for you).

Stable internet connection.

Knowledge of the Russian language

Working conditions:

Full time from 8:00 - 17:00

remote work from a personal computer;

Saturday, Sunday and Monday are working days, because most of the games are being played on these days.

Opportunities for career advancement and experience bonuses;

Professional training from our best team leaders. We pay for your education - studies are paid in the amount of \$300.

Submit your resume to improve your chances of getting a job.

There is a possibility of part-time employment

After applying for a job, check the notifications. Also, if you are interested in the vacancy - message us in Telegram @lvan_inc

With respect and will be glad to see you with us!
