Front End Developer

GEO1269788

Tbilisi >> Saburtalo

Education : BEP - CAP

Experience : < 1 year

Industry : Computer / Information Technology

Availability : Full Time

Vacancy details

In collaboration with the Graphic Designer, develop the Web Interface's functionality and interactivity in full detail based on the requirements. The Front End Developer should have good expertise in Angular 5, TypeScript, JavaScript, HTML 5 and CSS. Additional knowledge, such as GUI Development using QT and C++ is a plus.

Responsibilities

• Ensure the technical feasibility of UI/UX designs;

• Develop various Web Interfaces;

• Integrate all visual elements to create consistent layouts;

• Ensure that all features and functionalities are properly integrated and interfaced;

• Optimize the code for optimal speed and scalability;

• Collaborate with other team members and stakeholders;

• Follow the DevOps practice and provide recommendations for DevOps improvements;

• Stay current with development technologies and practices;

Required Skills

• Strong (English) verbal and written communication skills;

• Strong experience with interactive prototypes;

• Strong knowledge of Angular 5, TypeScript, JavaScript, HTML 5 and CSS;

• Excellent visual design skills with sensitivity to user-system interaction;

• Familiar with open source repositories and version control such as GitHub;

• Maintaining confidentiality and upholding company values are key attributes;

Preferred skills

• Good knowledge of relational databases; messaging structures and event-driven thinking;

• Strong knowledge of Service Oriented Architecture (SOA) and Microservices;

• Other programming languages such as C, or C++ would be an asset;

• Solid understanding of networking concepts and technologies;

• Familiar with DevOps approach, culture and practices;

Qualifications

• Bachelor's degree (BSc), preferably Masters' (MSc) degree in computer science;

• Strong design and UI Development and programming skills;

• Preferably 2+ years of experience, in Front End development;

• Angular 5, TypeScript, JavaScript, HTML 5 and Swift are a must;

• English is a must, additional languages would be considered;
