Vacancy details

We are looking for a Senior Cloud Engineer for a permanent work in international market.

About us: Eremenko & Polomani is an Estonia-based boutique consultancy founded in 2021. Our story was started in 2011. Our main resource is an international team of talented consultants and software engineers. Our team has wide technical, functional and commercial expertise.

Technology stack: AWS/Azure/Google Cloud, Docker, Kubernetes

Industries:

- Financial sector
- Media & Entertainment
- Manufacturing
- StartUps

Must have:

- Knowledge and experience with Cloud Services Infrastructure (AWS preferred): Strong knowledge of the following or their equivalents: Docker, Kubernetes, ECS, EC2, and VPC networking;
- 2+ years as power-user on Atlassian Suite (Jira/Confluence);
- 2+ years power-user of scm tools (Git);
- Experience in IT Support or System administration;
- Experience in enterprise environment, performing production releases;
- English level: Upper-Intermediate.

Nice to have:

- Knowledge and experience with Python or Java;
- Knowledge and practice in German.

We offer:

- experience of working with customers and project managers from the Western Europe and the USA;
- big and interesting projects;
- qualified management team.
