Vacancy details

Job brief

We are looking for a talented Web Designer to create amazing user experiences. The ideal candidate should have an

eye for clean and artful design, possess superior user interface design skills and be able to translate high-level requirements into interaction flows and artifacts, and transform them into beautiful, intuitive, and functional designs.

Responsibilities

Execute all visual design stages from concept to final hand-off to engineering

Conceptualize original ideas that bring simplicity and user friendliness to complex design roadblocks

Create wireframes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas

Present and defend designs and key milestone deliverables to peers and executive level stakeholders

Establish and promote design guidelines, best practices and standards

Requirements

Proven Web Design experience

Demonstrable graphic design skills with a strong portfolio

Solid experience in creating wireframes, storyboards, user flows, process flows and site maps

Proficiency in Photoshop, Illustrator, or other visual design and wire-framing tools

Proficiency in HTML, CSS, and JavaScript for rapid prototyping.

Excellent visual design skills with sensitivity to user-system interaction

Ability to solve problems creatively and effectively

Up-to-date with the latest Web trends, techniques, and technologies

BS/MS in Human-Computer Interaction, Interaction Design, or a Visual Arts subject

Experience working in an Agile/Scrum development process
